INFORMATION

KEYper Systems has investigated several vulnerabilities (CVE-2021-44228, CVE-2021-4104, CVE-2021-17571, CVE-2021-45046, CVE-2021-45105, CVE-2021-42550) related to the commonly used Java logging utility Apache Log4j and Logback. This investigation followed our Product Security Incident Response (PSIR) Policy to identify affected products, assess any potential implications for our customers, determine what mitigation steps should be taken, and notify affected customers.

We have not found that the vulnerabilities impact our products.

While our product investigation is done, we will continue to monitor the threat environment and update this advisory if this situation changes. Our security teams are actively monitoring our environments and updating our defense-in-depth tools.

We also continuously update our Security Resource Center with the latest information related to security concerning our products and services here: <https://www.keypersystems.com/security-resources-center/>
